

Liveable Cities Pre - Conference Tour Options

Sunday August 11th - Adelaide 2019

Green Cities Global, a newly formed Adelaide company working with Sustain SA have joined with organisers of the Liveable Cities Conference to bring to delegates a new unique experience of Adelaide communities that embodies the term “liveability” We will take you on journey of the senses in the Adelaide hills and in the suburbs of Adelaide that will provide a snapshot of Adelaide’s heart – its communities and places.

Liveable Cities - Communities Tour 1 (4- 5 hrs- 12- 5)

Explore the hills and its sustainable approach to a state of the earth sustainable production and lifestyle, meet the maker’s growers and producers who live and breathe community and the passion of healthy and connected communities. Let us provide a tour to exercise your senses, your taste buds and their stories

From the organic grower, to the local craft brewery, local historic wineries and the iconic Adelaide Hills brand’s experience the flavours that are the Adelaide Hills. 30 minutes from the City understand the hills and their role in contributing towards Adelaide’s status as a great liveable city.

Cost of tour: \$165.00

Time 12.00 to 5.00 p.m

Minimum 18 people

Included transport, tour guide, lunch tasting, tour of a sustainable production and wine and beer production and tasting and opportunity to purchase wine cheese and local chocolates. Visits to Lobethal Beirhaus and Lot 100 included in the trip.

Liveable Cities - Communities Tour 2 (4-5 hrs- 12-5)

Visit and experience 3 of SA iconic premier sustainable communities. Explore the future approach to inner city suburban living from conception to delivery in urban regeneration. These projects are recognised globally as world class examples of future communities. From a small medium dense low carbon community, to medium density close to city affordable lifestyle which is designed to reimagine city life, to an innovation district steeped in history of a past industry where a new village is being built to 21st century environmental design - guidelines in the heart of Australia’s leading innovation district”

Along the way walk amongst regenerated urban forests, and community gardens, experience the adaptive reuse of iconic industrial building in a 6 star green star communities and immerse yourself in the market experiences of community life.
